Liquid Stabilizer For PVC Film CST-128

Technical Data Sheet

Item NO.:CST-128

CAS:57583-35-4

HS Code: 381239

Technical specifications:

Item	Specifications
Appearance	Light yellow transparent liquid
Colour (Pt-Co value)	≤100
Metal Content (%)	19%
Sulfur Content (%)	11±0.5
Specific Gravity (25°C, g/cm ³)	1.15±0.05
Viscosity (25°C, mPa·S)	20-80

Features:

- Excellent thermal stability by combining the properties of tin stabilizer and antimony stabilizer.
- Specially developed according to the production of PVC film, it has strong usability and can completely replace the traditional methyl tin stabilizer in the field of PVC film.
- Very cost effective and save cost for customers significantly.

Applications:

- PVC shrinkable packaging film, label film, printing film, calendared film, twisting film etc.
- Addition usage amount: PVC Printing Film 1.6-1.8 PHR, No PVC Printing Film 1.2-1.4 PHR

Package:

Packed into plastic drum, 220kg/drum, packed into IBC tank, 1100 or 1200kg/IBC, or other customized package.

Storage and transport:

The product is nonflammable, non-toxic and non-explosive. Please keep in a cool and dry place with cover facing up to prevent water.

Note: Please pay attention to avoid the sun.
